

# Simplify Citywide Security with a Fully Integrated System

With Verkada's cloud-based security platform, local governments are modernizing the way they manage and access physical security across their facilities. Learn how Verkada's powerful solution makes it simple to protect citizens and critical infrastructure from a centralized platform.

## Products

### Video Security

- Scale cameras as needed across all facilities and departments.
- Provide enhanced visibility to protect your citizens, visitors, buildings and assets.

### Access Control

- Provision departments and staff members with tiered access levels.
- Schedule doors to lock or unlock based on hours of operation.

### Sensors

- Maintain optimal conditions to protect sensitive technology and equipment.
- Receive alerts for any sudden changes in temperature, noise levels, or air quality.

## Key Benefits

### Real-Time SMS Alerts

Set proactive alerts to be notified when suspicious activity occurs in critical areas or after hours.

### Lockdown Doors in Seconds

Create custom Lockdown events to secure public and government buildings in the event of an emergency.

### No Hidden Costs

US-based technical support, software upgrades, unlimited user seats and cloud archiving are included in the software license.

### Search Filters for Quick Investigations

Use powerful video forensics to filter people, vehicles, motion, and other attributes.

### Share Video for Incident Response

Access, download, and share footage from any browser or mobile device in minutes.

### Monitor From Anywhere

Remotely access doors, cameras and sensors without any VPNs or configurations.
